

Citi Trends, Inc. Announces Fiscal 2006 November Sales Results

Net Sales Increased 22.3% to \$30.2 million; Comparable Store Sales Increased 1.8%

SAVANNAH, Ga., Nov 29, 2006 /PRNewswire-FirstCall via COMTEX News Network/ -- Citi Trends, Inc. (Nasdaq: CTRN) today reported unaudited sales results for the four-week period ended November 25, 2006.

Total net sales for the four-week period ended November 25, 2006, increased 22.3% to \$30.2 million compared with \$24.7 million for the four-week period ended November 26, 2005. Comparable store sales increased 1.8% for the four-week period ended November 25, 2006, compared with a 26.0% increase in the prior-year period. Relocated and expanded stores are included in the comparable store sales results.

Consistent with trends previously noted in September and October, the Company's prior year November sales results benefited from increased customer traffic following Hurricanes Katrina, Rita and Wilma. After the hurricanes, sales in the stores directly affected by the hurricanes as well as stores located in contiguous areas increased dramatically. This rebound effect significantly more than offset the negative effect of the stores that were closed during September, October and November last year. For the current fiscal year, we estimate that sales in the non-affected comparable stores increased approximately 3% to 4% in November.

Citi Trends, Inc. is a value-priced retailer of urban fashion apparel and accessories for the entire family. The Company currently operates 272 stores located in 16 states in the South, Southeast, Midwest and Mid-Atlantic regions, and its website address is www.cititrends.com. CTRN-E
