Chief Executive Officer Comments

David Makuen, Chief Executive Officer, commented, "We are very pleased with our strong second quarter results that once again showcased the continuation of the end-to-end transformation of our business model, as well as the flexibility and agility of our teams. We are more confident than ever in the power of our physical stores in underserved communities that really need us. We saw a significant increase of new customers in our stores and our customers are in a better financial position which we expect will continue as employment levels rise and the economy continues to improve."

Makuen continued, "Our top line and bottom line results were once again broad-based with particular strength in our 'CITIs' for Men's, Ladies' and Beauty/Accessories. Most importantly, we lapped our second quarter 2020 comparable store sales of +15.6% with strong comparable store sales of +8.7%. We were extremely pleased to deliver a +25.6% comp as compared to the second quarter of 2019 on 14.3% less inventory. We entered the third quarter with stores full of fresh, new trends for the entire family, and we feel great about the momentum in our business, including a strong start to our back-to-school and back-to-dorm season."

"Based on our strong first half performance and confidence in our ability to capitalize on the opportunities that lie ahead, including an amazing holiday assortment to drive fourth quarter sales and our plan to open 20+ stores over the remainder of the year, we have increased our full year total sales and EPS outlook. Our revised outlook now calls for midpoint total sales of \$1 billion, reaching our previously shared long-range target more than a year earlier than planned, and delivering midpoint EPS of \$6.40, or 354% higher than fiscal 2019. Importantly, the base foundation of our business has improved, fueled by improved and expanded trend-right assortments resulting in higher spend per customer which we believe is sustainable over time. We remain committed to expanding the reach of the Citi Trends brand, and we see a long runway of growth ahead as we continue to fuel market share gains and build shareholder value over time," Makuen concluded.

Capital Return Program Update

In the second quarter, the Company repurchased approximately 215,000 shares of its common stock at an aggregate cost of \$18.9 million. In the first half of fiscal 2021, the Company repurchased approximately 752,000 shares of its common stock at an aggregate cost of \$64.4 million.

At the end of the second quarter, \$20.9 million remained available under the Company's existing share repurchase authorization. In addition, the Company's board of directors today announced the authorization of another \$30.0 million share repurchase program.

Guidance

Following the Company's strong performance during the first half of the fiscal year, the Company is raising its full year 2021 guidance and expects to generate total sales of \$990 million to \$1.01 billion, an increase of approximately 27% to 29% as compared to fiscal year 2019. This would result in expected earnings per diluted share in a range of \$6.30 to \$6.50, an increase of 354% at the midpoint compared to fiscal 2019.
