Citi Trends, Inc.
Notes to the Condensed Consolidated Financial Statements (unaudited)
May 2, 2015

1. Basis of Presentation

Citi Trends, Inc. and its subsidiary (the “Company”) operate as a value-priced retailer of urban fashion apparel and accessories for the entire family. As of May 2, 2015, the Company operated 515 stores in 31 states.

The condensed consolidated balance sheet as of May 2, 2015 and the condensed consolidated statements of income and cash flows for the thirteen week periods ended May 2, 2015 and May 3, 2014 have been prepared by the Company without audit. The condensed consolidated balance sheet as of January 31, 2015 has been derived from the audited financial statements as of that date, but does not include all required year-end disclosures. In the opinion of management, such statements include all adjustments considered necessary to present fairly the Company’s financial position as of May 2, 2015 and January 31, 2015, and its results of operations and cash flows for all periods presented. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company’s latest Annual Report on Form 10-K for the year ended January 31, 2015.

The accompanying unaudited condensed consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and footnotes required by U.S. GAAP for complete financial statements. Operating results for the thirteen weeks ended May 2, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending January 30, 2016.

The following contains references to years 2015 and 2014, which represent fiscal years ending or ended on January 30, 2016 and January 31, 2015, respectively. Fiscal 2015 and fiscal 2014 both have 52-week accounting periods.

2. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and use assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The most significant estimates made by management include those used in the valuation of inventory, property and equipment, self-insurance liabilities, leases and income taxes. Management periodically evaluates estimates used in the preparation of the consolidated financial statements for continued reasonableness. Appropriate adjustments, if any, to the estimates used are made prospectively based on such periodic evaluations.

3. Cash and Cash Equivalents/Concentration of Credit Risk

For purposes of the condensed consolidated balance sheets and condensed consolidated statements of cash flows, the Company considers all highly liquid investments with maturities at date of purchase of three months or less to be cash equivalents. Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash and cash equivalents. The Company places its cash and cash equivalents in what it believes to be high credit quality banks and institutional money market funds. The Company maintains cash accounts that exceed federally insured limits.

4. Earnings per Share

Basic earnings per common share amounts are calculated using the weighted average number of common shares outstanding for the period. Diluted earnings per common share amounts are calculated using the weighted average number of common shares outstanding plus the additional dilution for all potentially dilutive securities, such as nonvested restricted stock and stock options. During loss periods, diluted loss per share amounts are based on the weighted average number of common shares outstanding, because the inclusion of common stock equivalents would be antidilutive.

The dilutive effect of stock-based compensation arrangements is accounted for using the treasury stock method. This method assumes that the proceeds the Company receives from the exercise of stock options are used to repurchase common shares in the market. The Company includes as assumed proceeds the amount of compensation cost attributed to future services and not yet recognized, and the amount of tax benefits, if any, that would be credited to additional paid-in capital assuming exercise of outstanding options and vesting of nonvested restricted stock. For the thirteen weeks ended May 2, 2015 and May 3, 2014, there were 20,000 and 31,000 stock options, respectively, and 387,000 and 605,000 shares of nonvested restricted stock, respectively, excluded from the calculation of diluted earnings per share because of antidilution.

[Table of Contents](#)

The following table provides a reconciliation of the average number of common shares outstanding used to calculate basic earnings per share to the number of common shares and common stock equivalents outstanding used in calculating diluted earnings per share for the thirteen weeks ended May 2, 2015 and May 3, 2014:

	Thirteen Weeks Ended	
	May 2, 2015	May 3, 2014
Average number of common shares outstanding	15,095,729	14,900,893
Incremental shares from assumed exercises of stock options	771	637
Incremental shares from assumed vesting of nonvested restricted stock	84,837	—
Average number of common shares and common stock equivalents outstanding	<u>15,181,337</u>	<u>14,901,530</u>

5. Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market at the measurement date. Fair value is established according to a hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. Level 3 inputs are given the lowest priority in the fair value hierarchy.

As of May 2, 2015, the Company's investment securities are classified as held-to-maturity since the Company has the intent and ability to hold the investments to maturity. Such securities are carried at amortized cost plus accrued interest and consist of the following (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Short-term:				
Obligations of the U. S. Treasury (Level 1)	\$ 7,520	\$ 4	\$ —	\$ 7,524
Obligations of states and municipalities (Level 2)	3,912	3	—	3,915
Bank certificates of deposit (Level 2)	9,275	—	—	9,275
	<u>\$ 20,707</u>	<u>\$ 7</u>	<u>\$ —</u>	<u>\$ 20,714</u>
Long-term:				
Obligations of the U. S. Treasury (Level 1)	7,536	16	—	7,552
Obligations of states and municipalities (Level 2)	50	—	—	50
Bank certificates of deposit (Level 2)	13,742	—	—	13,742
	<u>\$ 21,328</u>	<u>\$ 16</u>	<u>\$ —</u>	<u>\$ 21,344</u>

The amortized cost and fair market value of investment securities as of May 2, 2015 by contractual maturity are as follows (in thousands):

	Amortized Cost	Fair Market Value
Mature in one year or less	\$ 20,707	\$ 20,714
Mature after one year through five years	21,328	21,344
	<u>\$ 42,035</u>	<u>\$ 42,058</u>

[Table of Contents](#)

As of January 31, 2015, the Company's investment securities were classified as held-to-maturity and consisted of the following (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Short-term:				
Bank certificates of deposit (Level 2)	\$ 4,996	\$ —	\$ —	\$ 4,996
Obligations of states and municipalities (Level 2)	2,074	—	—	2,074
Obligations of the U. S. Treasury (Level 1)	8,780	9	—	8,789
	<u>\$ 15,850</u>	<u>\$ 9</u>	<u>\$ —</u>	<u>\$ 15,859</u>
Long-term:				
Obligations of the U. S. Treasury (Level 1)	\$ 7,543	\$ 24	\$ —	\$ 7,567
Bank certificates of deposit (Level 2)	14,904	—	—	14,904
	<u>\$ 22,447</u>	<u>\$ 24</u>	<u>\$ —</u>	<u>\$ 22,471</u>

The amortized cost and fair market value of investment securities as of January 31, 2015 by contractual maturity were as follows (in thousands):

	Amortized Cost	Fair Market Value
Mature in one year or less	\$ 15,850	\$ 15,859
Mature after one year through five years	22,447	22,471
	<u>\$ 38,297</u>	<u>\$ 38,330</u>

There were no changes among the levels in the thirteen weeks ended May 2, 2015.

Fair market values of Level 2 investments are determined by management with the assistance of a third party pricing service. Because quoted prices in active markets for identical assets are not available, these prices are determined by the third party pricing service using observable market information such as quotes from less active markets and quoted prices of similar securities.

6. Revolving Line of Credit

On October 27, 2011, the Company entered into a five-year, \$50 million credit facility with Bank of America. The facility includes a \$25 million uncommitted "accordion" feature that under certain circumstances could allow the Company to increase the size of the facility to \$75 million. Borrowings, if any, under the facility will bear interest (a) for LIBOR Rate Loans, at LIBOR plus 1.5%, or (b) for Base Rate Loans, at a rate equal to the highest of (i) the prime rate plus 0.5%, (ii) the Federal Funds Rate plus 1.0%, or (iii) LIBOR plus 1.5%. The facility is secured by the Company's inventory, accounts receivable and related assets, but not its real estate, fixtures and equipment, and it contains one financial covenant, a fixed charge coverage ratio, which is applicable and tested only in certain circumstances. The facility has an unused commitment fee of 0.25% and permits the payment of cash dividends subject to certain limitations, including a requirement that there were no borrowings outstanding in the 30 days prior to the dividend payment and no borrowings are expected in the 30 days subsequent to the payment. The Company has had no borrowings under the credit facility.

7. Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized.

ASC 740-270, "Income Taxes — Interim Reporting", requires companies to calculate income taxes by applying their estimated full-year tax rate in each interim period unless the estimated full-year tax rate is not reliably predictable. For the thirteen weeks ended May 2, 2015 and May 3, 2014, the Company utilized this annual effective tax rate method to calculate income taxes. Work opportunity tax credits (WOTC) earned on wages paid subsequent to December 31, 2014 were not available to the Company for the first quarter of 2015 due to the expiration of the program on December 31, 2014. It is possible that the federal government will retroactively reinstate WOTC back to the beginning of 2015 (as was done in 2014); however, due to the uncertainty involved, no WOTC benefits were recorded on 2015 qualifying wages in the thirteen week period ended May 2, 2015.

[Table of Contents](#)

8. Other Long-Term Liabilities

The components of other long-term liabilities as of May 2, 2015 and January 31, 2015 are as follows (in thousands):

	May 2, 2015	January 31, 2015
Deferred rent	\$ 1,101	\$ 1,209
Tenant improvement allowances	2,517	2,490
Other	1,936	2,050
	<u>\$ 5,554</u>	<u>\$ 5,749</u>

9. Commitments and Contingencies

On August 12, 2011, the Company received a letter of determination from the U.S. Equal Employment Opportunity Commission (the "EEOC") commencing a conciliation process regarding alleged discrimination against males by the Company in its hiring and promotion practices during the years 2004 through 2006. The Company has not received full documentation or information from the EEOC in support of its letter of determination, but has undertaken its own internal analysis of the EEOC's claims and defenses to such claims and has had discussions with the EEOC in that regard. In the interest of reaching a satisfactory conciliation agreement with the EEOC, the Company proposed a total economic settlement offer of \$1.0 million to cover all claims and the expenses of administering and complying with the settlement (excluding professional fees), with no reversion of unclaimed funds back to the Company. On March 19, 2015, the Company received a response from the EEOC proposing a settlement amount to be paid by the Company of \$1.0 million to cover all claims. The EEOC's proposed conciliation agreement contained in its settlement proposal would require certain undertakings by the Company with regard to employment policies and procedures, training requirements, and a continuing reporting obligation to the EEOC for a period of two years, with the expenses incurred in connection with such undertakings to be paid by the Company. The Company has evaluated this proposed conciliation agreement and has addressed with the EEOC certain modifications to it, without affecting the overall settlement amount. The Company is awaiting a response from the EEOC regarding these proposed modifications.

The Company from time to time is also involved in various other legal proceedings incidental to the conduct of its business, including claims by customers, employees or former employees. Once it becomes probable that the Company will incur costs in connection with a legal proceeding and such costs can be reasonably estimated, it establishes appropriate reserves. While legal proceedings are subject to uncertainties and the outcome of any such matter is not predictable, the Company is not aware of any other legal proceedings pending or threatened against it that it expects to have a material adverse effect on its financial condition, results of operations or liquidity.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Statements

Except for specific historical information, many of the matters discussed in this Form 10-Q may express or imply projections of revenues or expenditures, statements of plans and objectives for future operations, growth or initiatives, statements of future economic performance, or statements regarding the outcome or impact of pending or threatened litigation. These, and similar statements, are forward-looking statements concerning matters that involve risks, uncertainties and other factors that may cause the actual performance of the Company to differ materially from those expressed or implied by these statements. All forward-looking information should be evaluated in the context of these risks, uncertainties and other factors. The words “believe,” “anticipate,” “project,” “plan,” “expect,” “estimate,” “objective,” “forecast,” “goal,” “intend,” “could,” “will likely result,” or “will continue” and similar words and expressions generally identify forward-looking statements, although not all forward-looking statements contain such language. The Company believes the assumptions underlying these forward-looking statements are reasonable; however, any of the assumptions could be inaccurate, and therefore, actual results may differ materially from those projected in the forward-looking statements.

The factors that may result in actual results differing from such forward-looking information include, but are not limited to: transportation and distribution delays or interruptions; changes in freight rates; the Company’s ability to negotiate effectively the cost and purchase of merchandise; inventory risks due to shifts in market demand; the Company’s ability to gauge fashion trends and changing consumer preferences; changes in consumer spending on apparel; changes in product mix; interruptions in suppliers’ businesses; a deterioration in general economic conditions caused by acts of war or terrorism or other factors; temporary changes in demand due to weather patterns; seasonality of the Company’s business; delays associated with building, opening and operating new stores; delays associated with building, opening or expanding new or existing distribution centers; and other factors described in the section titled “Item 1A. Risk Factors” and elsewhere in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2015 and in Part II, “Item 1A. Risk Factors” and elsewhere in the Company’s Quarterly Reports on Form 10-Q and any amendments thereto and in the other documents the Company files with the SEC, including reports on Form 8-K.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this Form 10-Q. Except as may be required by law, the Company undertakes no obligation to update or revise publicly any forward-looking statements contained herein to reflect events or circumstances occurring after the date of this Form 10-Q or to reflect the occurrence of unanticipated events. Readers are advised, however, to read any further disclosures the Company may make on related subjects in its public disclosures or documents filed with the SEC, including reports on Form 8-K.

Overview

We are a value-priced retailer of urban fashion apparel and accessories for the entire family. Our merchandise offerings are designed to appeal to the preferences of fashion conscious consumers, particularly African-Americans. We operated 515 stores in both urban and rural markets in 31 states as of May 2, 2015.

We measure performance using key operating statistics. One of the main performance measures we use is comparable store sales growth. We define a comparable store as a store that has been opened for an entire fiscal year. Therefore, a store will not be considered a comparable store until its 13th month of operation at the earliest or until its 24th month at the latest. As an example, stores opened in fiscal 2014 and fiscal 2015 are not considered comparable stores in fiscal 2015. Relocated and expanded stores are included in the comparable store sales results. We also use other operating statistics, most notably average sales per store, to measure our performance. As we typically occupy existing space in established shopping centers rather than sites built specifically for our stores, store square footage (and therefore sales per square foot) varies by store. We focus on overall store sales volume as the critical driver of profitability.

In addition to sales, we measure cost of sales as a percentage of sales and store operating expenses, with a particular focus on labor, as a percentage of sales. These results translate into store level contribution, which we use to evaluate overall performance of each individual store. Finally, we monitor corporate expenses against budgeted amounts. All of the statistics discussed above are critical components of earnings before interest, taxes, depreciation and amortization (“EBITDA”) and Adjusted EBITDA (comprised of EBITDA, as adjusted for non-cash asset impairment expense), which are considered our most important operating statistics. Although non-GAAP measures such as EBITDA and Adjusted EBITDA provide useful information on an operating cash flow basis, they are limited measures in that they exclude the impact of cash requirements for capital expenditures, income taxes and interest expense. Therefore, EBITDA and Adjusted EBITDA should be used as supplements to results of operations and cash flows as reported under U.S. GAAP and should not be used as a singular measure of operating performance or as a substitute for U.S. GAAP results. Furthermore, such non-GAAP measures may not be comparable to similarly titled measures of other companies.

Provided below is a reconciliation of net income to EBITDA and to Adjusted EBITDA for the thirteen week periods ended May 2, 2015 and May 3, 2014:

	Thirteen Weeks Ended	
	May 2, 2015	May 3, 2014
Net income	\$ 11,279	\$ 9,079
Plus:		
Interest expense	47	48
Income tax expense	5,509	5,040
Depreciation	4,813	5,160
Less:		
Interest income	(56)	(53)
EBITDA	21,592	19,274
Asset impairment	—	—
Adjusted EBITDA	\$ 21,592	\$ 19,274

Accounting Periods

The following discussion contains references to fiscal years 2015 and 2014, which represent fiscal years ending or ended on January 30, 2016 and January 31, 2015, respectively. Fiscal 2015 and fiscal 2014 both have 52-week accounting periods. This discussion and analysis should be read with the unaudited condensed consolidated financial statements and the notes thereto.

Results of Operations

The following discussion of the Company's financial performance is based on the unaudited condensed consolidated financial statements set forth herein. The nature of the Company's business is seasonal. Historically, sales in the first and fourth quarters have been higher than sales achieved in the second and third quarters of the fiscal year. Expenses and, to a greater extent, operating income, vary by quarter. Results of a period shorter than a full year may not be indicative of results expected for the entire year. Furthermore, the seasonal nature of the Company's business may affect comparisons between periods.

Thirteen Weeks Ended May 2, 2015 and May 3, 2014

Net Sales. Net sales increased \$6.9 million, or 3.7%, to \$194.9 million in the thirteen weeks ended May 2, 2015 from \$188.0 million in the thirteen weeks ended May 3, 2014. The increase in sales was due to the opening of 12 new stores since last year's first quarter and a 1.8% increase in comparable store sales, partially offset by the impact of closing two stores in fiscal 2014. The increase in comparable store sales was reflected in an increase of 4% in the number of customer transactions and a slight increase in the average number of items per transaction, partially offset by an average unit sale that declined by more than 2%. Comparable store sales changes by major merchandise class were as follows in the first quarter of 2015: Home +13%; Ladies' +7%; Accessories +2%; Men's -1%; and Children's -3%.

Store opening and closing activity resulted in a net increase of \$3.5 million, while the 1.8% comparable store sales increase in the 503 comparable stores totaled \$3.4 million.

Cost of Sales (exclusive of depreciation). Cost of sales (exclusive of depreciation) increased \$2.7 million, or 2.4%, to \$117.5 million in the first quarter of 2015 from \$114.8 million in last year's first quarter due to the effect of the increase in sales discussed above, partially offset by an improvement in cost of sales as a percentage of sales to 60.3% in the first quarter of 2015 from 61.0% in last year's first quarter. The decrease in cost of sales as a percentage of sales was due primarily to an 80 basis points improvement in the core merchandise margin (initial mark-up, net of markdowns) as a result of improved inventory management and the resulting need for fewer merchandise markdowns in this year's first quarter.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$1.8 million, or 3.4%, to \$55.8 million in the first quarter of 2015 from \$54.0 million in last year's first quarter due to the opening of 12 new stores since last year's first quarter, together with normal inflationary pressure on expenses such as payroll, rent, and employee medical claims. As a percentage of sales, selling, general and administrative expenses decreased slightly to 28.6% in the first quarter of fiscal 2015 from 28.7% in the first quarter of fiscal 2014.

[Table of Contents](#)

Depreciation. Depreciation expense decreased \$0.4 million, or 6.7%, to \$4.8 million in the first quarter of 2015 from \$5.2 million in the first quarter of 2014, due to the slowing of our store opening pace in relation to previous years.

Income Tax Expense. Income tax expense increased \$0.5 million, or 9.3%, to \$5.5 million in this year's first quarter from \$5.0 million in the first quarter of 2014 due to an increase in pretax income, partially offset by a decrease in the effective income tax rate to 32.8% from 35.7%, with the decrease in such rate from last year resulting from tax credits being higher as a percentage of pretax income in fiscal 2015.

Net Income. Net income increased 24.2% to \$11.3 million in the first quarter of 2015 from \$9.1 million in the first quarter of 2014 due to the factors discussed above.

Liquidity and Capital Resources

Our cash requirements are primarily for working capital, opening of new stores, remodeling of our existing stores and the improvement of our information systems. In recent years, we have met these cash requirements using cash flow from operations and short-term trade credit. We expect to be able to meet future cash requirements with cash flow from operations, short-term trade credit, existing balances of cash and investment securities and, if necessary, borrowings under our revolving credit facility.

Current Financial Condition. As of May 2, 2015, we had total cash and cash equivalents of \$86.8 million compared to \$74.5 million as of January 31, 2015. Additionally, we had \$20.7 million and \$21.3 million of short-term and long-term investment securities, respectively, as of May 2, 2015, compared with \$15.9 million and \$22.4 million, respectively, as of January 31, 2015. These securities are comprised of bank certificates of deposit and obligations of the U.S. Treasury, states and municipalities. Inventory represented 37.0% of our total assets as of May 2, 2015, compared to 41.2% as of January 31, 2015. Management's ability to manage our inventory can have a significant impact on our cash flows from operations during a given interim period or fiscal year. In addition, inventory purchases can be seasonal in nature, such as the purchase of warm-weather or Christmas-related merchandise.

Cash Flows From Operating Activities. Net cash provided by operating activities was \$19.0 million in the first quarter of 2015 compared to \$26.0 million in the same period of 2014. Sources of cash provided during the first quarter of 2015 included net income adjusted for noncash expenses such as depreciation, loss on disposal of property and equipment, deferred income taxes and stock-based compensation expense, totaling \$18.9 million (compared to \$16.1 million in the first quarter of 2014). Other significant sources of cash in the first quarter of 2015 were (1) a \$14.9 million decrease in inventory (compared to a \$13.8 million decrease in the first quarter of fiscal 2014) due to apparel retail seasonality which typically results in having more inventory at the beginning of the spring selling season than at the end, and (2) a \$4.4 million change in the income tax receivable/payable (compared to a \$4.4 million change in the first quarter of fiscal 2014) due to income tax expense being accrued on first quarter pretax income while no estimated tax payments were due during the quarter. Significant uses of cash from operating activities were (1) a \$15.3 million decrease in accounts payable (compared to an \$8.4 million decrease in the first quarter of 2014) due to the decline in inventory discussed above, and (2) a \$4.4 million decrease in accrued compensation (compared to a \$0.8 million increase in the first quarter of fiscal 2014) due to payment in the first quarter of 2015 of incentive compensation accrued in fiscal 2014.

Cash Flows From Investing Activities. Cash used in investing activities was \$5.6 million in the first quarter of 2015 and \$2.5 million in the first quarter of 2014. Purchases of investment securities, net of sales/redemptions, used cash of \$3.7 million and \$0.7 million in the first quarter of 2015 and 2014, respectively. Cash used for purchases of property and equipment totaled \$1.9 million and \$1.8 million in the first quarter of 2015 and 2014, respectively.

Cash Flows From Financing Activities. Cash flows from financing activities were insignificant in the first thirteen weeks of both 2015 and 2014.

Cash Requirements

Our principal sources of liquidity consist of: (i) cash and cash equivalents (which equaled \$86.8 million as of May 2, 2015); (ii) short-term and long-term investment securities (which equaled \$20.7 million and \$21.3 million, respectively, as of May 2, 2015); (iii) short-term trade credit; (iv) cash generated from operations on an ongoing basis as we sell our merchandise inventory; and (v) a \$50 million revolving credit facility (under which we have no borrowings outstanding). Trade credit represents a significant source of financing for inventory purchases and arises from customary payment terms and trade practices with our vendors. Historically, our principal liquidity requirements have been for working capital and capital expenditure needs.

We believe that our existing sources of liquidity will be sufficient to fund our operations and anticipated capital expenditures for at least the next 12 months.

Critical Accounting Policies

The preparation of our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. There have been no material changes to the Critical Accounting Policies outlined in the Company's Annual Report on Form 10-K for the year ended January 31, 2015.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes in our market risk during the thirteen weeks ended May 2, 2015 compared to the disclosures in Part II, Item 7A of our Annual Report on Form 10-K for the year ended January 31, 2015.

Item 4. Controls and Procedures.

We have carried out an evaluation under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of May 2, 2015 pursuant to Rules 13a-15 and 15d-15 of the Exchange Act. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer each concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information has been accumulated and communicated to our management, including the officers who certify our financial reports, as appropriate, to allow timely decisions regarding the required disclosures.

Our disclosure controls and procedures are designed to provide reasonable assurance that the controls and procedures will meet their objectives. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

There were no changes in our internal control over financial reporting that occurred during the fiscal quarter ended May 2, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

On August 12, 2011, we received a letter of determination from the U.S. Equal Employment Opportunity Commission (the “EEOC”) commencing a conciliation process regarding alleged discrimination against males by us in our hiring and promotion practices during the years 2004 through 2006. We have not received full documentation or information from the EEOC in support of its letter of determination, but have undertaken our own internal analysis of the EEOC’s claims and defenses to such claims and have had discussions with the EEOC in that regard. In the interest of reaching a satisfactory conciliation agreement with the EEOC, we proposed a total economic settlement offer of \$1.0 million to cover all claims and the expenses of administering and complying with the settlement (excluding professional fees), with no reversion of unclaimed funds back to us. On March 19, 2015, we received a response from the EEOC proposing a settlement amount to be paid by us of \$1.0 million to cover all claims. The EEOC’s proposed conciliation agreement contained in its settlement proposal would require certain undertakings by us with regard to employment policies and procedures, training requirements, and a continuing reporting obligation to the EEOC for a period of two years, with the expenses incurred in connection with such undertakings to be paid by us. We have evaluated this proposed conciliation agreement and have addressed with the EEOC certain modifications to it, without affecting the overall settlement amount. We are awaiting a response from the EEOC regarding these proposed modifications.

We are from time to time also involved in various other legal proceedings incidental to the conduct of our business, including claims by customers, employees or former employees. Once it becomes probable that we will incur costs in connection with a legal proceeding and such costs can be reasonably estimated, we establish appropriate reserves. While legal proceedings are subject to uncertainties and the outcome of any such matter is not predictable, we are not aware of any other legal proceedings pending or threatened against us that we expect to have a material adverse effect on our financial condition, results of operations or liquidity.

Item 1A. Risk Factors.

There are no material changes to the Risk Factors described under the section “ITEM 1A. RISK FACTORS” in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Not applicable.

Item 3. Defaults Upon Senior Securities.

Not applicable.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

Not applicable.

CERTIFICATION

I, Jason T. Mazzola, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended May 2, 2015 of Citi Trends, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
